

Discussion:

1. Ivy+ Draft Constitution
 - a. Read through the draft after the meeting and share comments at the next executive meeting and then share with the general council following changes at the exec meeting
 - b. All other deans for each of the schools in the Ivy+ are in the Dean's Ivy+ Group except for Dartmouth because the Dartmouth graduate school is not accredited to the same level as the other schools – we are working on getting Dean Kull in this group
 - c. Currently only the Dartmouth graduate school is represented in the Ivy+ Summit, so in the future when the Senate it is formed it will be important to have professional school representation as well from Dartmouth
 - d. Comments: unanimous vote to change constitution in future should be changed to perhaps $\frac{3}{4}$ majority
2. Drink tracking at GSC dances
 - a. Instead of marking drinks on wrists, we can mark the number of drinks served at the serving table and the number of attendees and then do simple division for drinks per person
 - b. We will inform the general council at the meeting tomorrow
3. Title IX training
 - a. Draft of online training that may be used at Dartmouth – will be mandatory for all faculty, staff, post-docs, and graduate students
 - b. We will discuss thoughts about Hanlon's email and the draft training at the next executive meeting and move forward then
4. Dick's House Workshops
 - a. Training for PIs and graduate students on power dynamics by the counseling office with basic information about power dynamics and a few scenarios for examples of applying the information
 - b. Working with a professor who ran trainings like this in the past to determine what attracts PIs vs. graduate students for the trainings to get the appropriate audiences at each event
 - c. This would be in addition to the suggested mandatory training we've been working with Dean Kull to implement

Updates:

1. Council on computing elections
 - a. Postponed until February

Announcements:

1. Suicide prevention workshops:
 - a. February 13th and 20th in LSC 105 from 5:30pm-7:30pm
